

**S.T.E.P.S. stands for Steps To Ethically Profiling Stability.**

We are a non-profit outreach service organization designed to help socially disadvantaged people become stabilized in healthy living environments that perpetuate wellness.

### **MISSION STATEMENT:**

The mission of S.T.E.P.S. organization is to provide support services and advocacy to the socially disadvantaged. We focus on lifestyle changes including stable housing, then, promoting and maintaining physical, mental, social, and spiritual growth.

We are a growing group of individuals, some of whom have had experiences similar to the people we choose to help. Our primary goal is to offer long term support for positive lifestyle changes and stabilization. Our skills range from individuals with degrees and certifications, specialists and professionals to all kinds of common folks who just want to help people and their communities become better; all committed to helping socially disadvantaged people live productive lives.

Many agencies, old and new, ranging from legal services to housing placement and subsidy, are involved with this outreach. Keep in mind the primary focus of S.T.E.P.S. is on

successfully stabilizing the homeless (thus reducing the homeless population in our communities and making our communities better as a whole), especially the populations hardest hit and hardest to reach, whom are sometimes mentally, physically, financially, and even chemically challenged. These barriers have made their plight next to impossible to overcome, but have teamed together to overcome these barriers One Step At A Time.

We are privileged to be able to assist with the information, support, and options that socially disadvantaged people need in order to make the appropriate and best decisions for their individual situation(s). S.T.E.P.S. has combined the experience and knowledge of our partners and produces an exceptional team ready to help our participants in what can be a very stressful time for those in transition from homelessness.

S.T.E.P.S. is a rapidly expanding non-profit organization, opening up many contracted living units, including assisted living, adult family homes, and independent living opportunities.

Please Help Others Help Themselves by getting involved with S.T.E.P.S.

### **WHAT WE OFFER:**

1. Housing that offers clean, sober, and serene environments.
2. Social and legal evaluation and maintenance.
3. 12-Step and spiritual outreach and resources.
4. Self-sufficiency training and goal- setting with Certified Peer Specialist.
5. Other individual case management and special needs.
6. Collaboration with Social Workers to re-establish Family and Family Stability.
